

CNC Swiss Lathe Machinist:

Talon Innovations, Sauk Rapids MN, has an immediate need for a CNC Machinist with experience in Swiss style machining. This is a full time hourly position, Monday through Friday.

This position is responsible for the programming, set-up, and operation of several Swiss style CNC lathes. The preferred candidate will have several years of demonstrated ability to process high precision parts to print and should also have demonstrated ability to inspect and verify said parts using basic hand inspection tools.

Minimum requirements:

- High School diploma or equivalent.
- The successful completion of a 2 yr. professional trade program in the field of Machining and CNC Machining Technology or equivalent.
- Must have performed set-ups, written and edited Swiss style programs, conducted tooling changes and operated Swiss style CNC machines for a minimum of 3-5 years.
- Must understand machining math.
- Must be able to read and understand blue prints.
- Must have basic PC skills to electronically track production status.

Additional preferred skills:

- Additional experience running 4 & 5 axis CNC machines is a plus.
- Some proficiency in reading and understanding Geometric Dimensioning and Tolerancing (GD&T).
- Demonstrated ability to work as an integral member of a production team.

Employee benefit package includes paid vacation time, holidays, medical, dental, life, supplemental insurance & 401K matching. Compensation based on experience. Advancement opportunities and salary increases based on performance and ability to reach corporate and departmental goals. Must pass criminal background check.

Interested parties please submit resume and cover letter to:
